

STEM Training with Virtual Reality

Prepare to immerse yourself in Science, Technology, Engineering and Math (STEM) in a whole new way using the Oculus Quest 2 virtual reality headset.

Join us each day for an interactive VR classroom experience to see how VR can be used to study STEM together. Then on your own time you get to Journey to Outer Space to tour the International Space Station in interactive VR! Journey around Earth's ecospheres in immersive 3D video to see the great savannahs of KENYA, the ancient jungles of BORNEO and the rich coral reefs of RAJA AMPAT. Meet elephants, orangutans, manta rays, and even dinosaurs. Open the door to many unforgettable experiences! Students will receive the Oculus Quest 2 VR headset and a year long subscription to Engage.

June 14, 2021 - June 25, 2021
